Epson **MG-850HD**

Innovative HD-Ready entertainment system with iPod[*21] docking station for watching and sharing music, video and photos.

– Simply connect iPod, iPhone or iPad[*22] to the docking station – iTunes compatible. No special apps required.
– Superb images even in daylight with 3000:1 contrast ratio and 2,800 lumens White and Colour Light Output.
– Plug-and-play, simple and very compact with a retractable handle for easy carrying between rooms or homes.

HD ready

Made for
iPod iPhone iPad

See footnote [*23]

Epson **EH-TW480**

The 720p HD-Ready home cinema projector that delivers rich, sharp images, easy operation and great value for money.

– High White and Colour Light Output of up to 2,800 lumens for easy daytime viewing.
– Easy to set up and connect to Blu-Ray, DVD, TV, PC and games consoles.
– Easy to carry around and take the big screen experience to another room or a friend's house.

Epson **EH-TW550**

This portable, HD-Ready 3D projector offers in-depth gaming graphics and adds an extra dimension to the home cinema experience.

– 720p HD-Ready projector with immersive 3D cinema images and a specific colour mode for gaming.
– Utilising Radio Frequency (RF) 3D glasses (not included) and supporting a wide range of 3D sources.
– High White and Colour Light Output of up to 3,000 lumens for easy daytime viewing.

Epson **EH-TW6100**

Full HD projector for film enthusiasts, gamers
and sports fans. Very easy to set up and use,
and includes high-end features.

– Superb, bright Full HD 3D images even in daylight
  with 2,300 lumens Colour Light Output.
– Supports a wide range of 3D sources, including
  2 x HDMI 1.4 inputs.
– Radio Frequency (RF) compatible 3D glasses[*24].
– Easy to set up and use with horizontal and vertical
  keystone correction, auto-colour optimiser, powerful
  zoom and built-in 20W speaker.

Epson **EH-TW6100W**

This Full HD cinematic projector delivers bright, high definition 2D and 3D home cinema, gaming and sports, with the added flexibility of 'real time' responsive WirelessHD connection.

– Versatile wireless 2D and Full HD 3D[*25] connection, plus new wireless transmitter with 5 HDMI inputs.
– Superb, bright Full HD 3D images even in daylight with 2,300 lumens Colour Light Output.
– Includes 1 pair of USB rechargeable active shutter glasses for 3D viewing.

Epson **Connect**

Smartphone, laptop and tablet PC printing from anywhere[2].

Epson iPrint

Free app that enables printing and scanning between your mobile device and your nearby Epson printer.

Epson Scan-to-Cloud

Scan files directly to Cloud services for sharing or storage.

Epson Email Print

Print via email from anywhere.

Epson Remote Print Driver

Print via your print driver anywhere in the world.

Apple AirPrint[3]

AirPrint

Makes it simple to print your emails, photos, web pages and documents directly from your iOS device to an AirPrint-ready Epson printer.

Google Cloud Print

Google
Cloud Print Ready

Print on the go from your smartphone or computer, directly from Chrome OS and Google Cloud Print-enabled apps to a Google Cloud Print-ready Epson printer.

Epson **Micro Piezo®**

This exclusive ink delivery system creates precise, perfectly formed ink droplets for superb results at high speeds.

– Ink is placed efficiently and accurately.
– Large ink droplets for areas of the same colour and small ink droplets for detailed areas.
– Unlike other systems the ink is not heated but propelled by electricity, which is cleaner and more reliable.
– The Micro Piezo printhead lasts the life of the printer which keeps costs low and is easier on the environment.
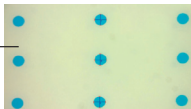

Epson Micro Piezo printhead delivers precision droplets for perfect prints.
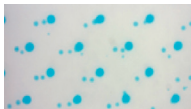

Competitor thermal ink technology.

Epson **Easy Photo Fix**

Epson Easy Photo Fix is a scanning technology that automatically finds defects in photos and corrects them to guarantee the best results every time.

– Simple system that recognises the source and type of original and crops, optimises and scans the image.
– Scan and fix problem photos, slides or negatives (where applicable) with just one click.
– Restore faded colours, remove dust and correct backlighting.

Before

Restores faded photos back to their original colours.

Removes dust from images.

Automatically corrects backlight.

Epson **ReadyScan**

Enjoy instant scanning and lower energy costs
with virtually no warm-up time, less heat and low
power consumption.

– Epson ReadyScan LED (Light Emitting Diode) technology is
  replacing traditional CCFL (Cold Cathode Fluorescent Lamps).
– Efficient LED white light means fast overall scan speeds.
– Power is reduced by 20% during operation and 44%
  during stand-by, and the mercury-free lamp is kinder to
  the environment.

0   Warm-up time (secs)   45

Epson
Perfection
V500 Photo

Epson ReadyScan LED – 0.15 seconds

CCFL – 45 seconds

Ordinary
CCFL
Scanner

ReadyScan
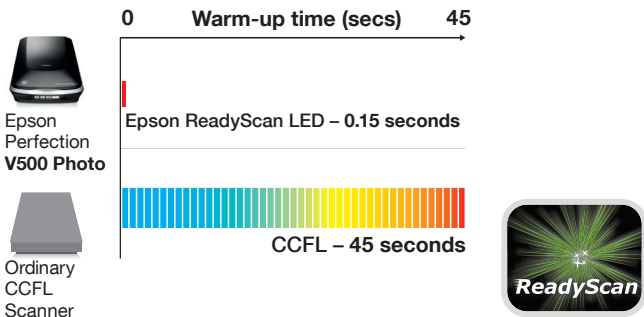

Digital ICE™ **Technologies**

Our high-end scanners feature this technology which takes old, dusty or scratched film and slides and scans them to look as good as new.

– Remove the appearance of dust, hairs, scratches and fingerprints from scanned film and slides.
– Infrared light picks up defects for removal by the scanner software.
– Images are scanned twice – to collect colour information and defects – then the two images are compared and the defects removed.

Before   After

Epson **Scan**

Simple controls mean users can automatically scan documents and photos directly to a PC at the touch of a button and even scan to PDF and email.

– Four modes depending on your experience – Full Auto, Home, Office and Professional – your chosen user mode will be remembered next time you scan.
– Use as a standalone program, or as a TWAIN driver in software e.g. Adobe® PhotoShop®.
– Restore colour, remove dust and correct backlight to scanned images at the click of a button.

Epson **3LCD technology**

Epson's exclusive technologies deliver rich, superbly detailed images exhibiting smoother texture and richer blacks than ever before.

However fast moving or detailed you like your games, movies or sports, Epson's 3LCD technology delivers equal Colour and White Light Output for bright, natural images that are smooth and easy on the eye.
